

Web Development

Web Development is a broad term for the work involved in developing a web site for the Internet (World Wide Web) or an intranet (a private network).

The screenshot displays the website layout for Chase Technologies Corporation. At the top left is the CTC logo and company name. To the right, it celebrates '25 YEARS OF EXCELLENCE' with the slogan 'We put you AHEAD'. A navigation menu includes links for Home, Products, Industry Solutions, What We Do, Company Profile, Terms and Conditions, Careers, and Contact Us. The main content area features a banner for 'AHEAD WinPOS' with a woman and a POS terminal, described as a 'Dynamic Solution for Retail Management'. Below this is a 'WHAT WE DO' section listing various services such as Business Audit, Network Installation, and Web Development. On the right, a 'CONTACT US' sidebar shows an empty 'INQUIRY LIST' and a 'CHAT!' button. A 'Need Help? Click CTC Live Chat' button is visible at the bottom right of the screenshot.
